

## **Envision Differences Between Options**

### EnvisionRx Option 1A

- No member disruption
- Minimal calls, concerns and anxiety
- Higher monthly premium
- A less efficient plan design – doesn't take full advantage of available government subsidies
- Likely to experience a higher year-over-year trend rate

### EnvisionRx Option 2A

- Maximum out-of-pocket cost: \$3,300
- Use EIC EGWP Formulary
- Coverage in the Coverage Gap
- No multi-year rate guarantee. May consider in the future.
- TPA admin fee included in the premium
- Standalone \$191.84

### EnvisionRx Option 3A

- This is a pure Group Part D Standard Benefit
- \$400 deductible
- 25% member out-of-pocket cost
- No coverage in the Coverage Gap
- Use EIC EGWP formulary
- No multi-year rate guarantee. May consider in the future.
- TPA admin fee included in the premium

## **Aetna Differences Between Options**

### **Current Benefit Plan Design**

- No member disruption
- Higher monthly premium

### **Alternate Plan Design**

- \$190 dual/\$173 standalone
- Changes specialty coverage from 33% with \$100 max to 25% with no max

### **Low Cost Option at \$84.68 Dual**

- Only generics are covered in the coverage gap
- Also changes specialty coverage from 33% with \$100 max to 25% with no max
- Adds a more restrictive formulary
- Copays versus Coinsurance
- Preferred / Standard network
- The 90 days drugs are the same as the 60 days drugs
